Key Relationship Notes

- orders → order_items via order_id
- order_items → products via product_id
- order_items → sellers via seller_id
- products → category translation via product_category_name
- orders → customers via customer_id
- orders → reviews via order_id
- orders → payments via order_id
- Note: price and freight_value live in order_items not products
- Note: column names product_name_lenght and product_description_lenght are known typos in the original dataset
